

Dear parents and carers,

I'm writing to let you know that a person with COVID-19 was on our Glenroy campus while infectious.

Date positive case/s reported:	2/02/2022
Impacted class/es or year level/s	Any extracurricular activities, including school bus transport
Year 7E	Not Applicable

What you need to know

If your child is not experiencing COVID-19 symptoms, they can continue to attend school, but you should monitor for symptoms.

Students who show symptoms of COVID-19 cannot attend school and should get tested immediately and isolate until they receive a negative result.

Students should continue with twice-a-week rapid antigen testing on school days.

Students who have recovered from COVID-19 do not need to participate in surveillance testing for 30 days after their isolation period has ended.

For information on symptoms visit: <u>https://www.coronavirus.vic.gov.au/symptoms-and-risks.</u>

For more information on how to get tested visit: <u>https://www.coronavirus.vic.gov.au/taking-test-covid-19.</u>

If your child returns a positive result, your child has COVID-19. You must:

- quarantine your child for seven days
- advise the school about the positive result
- Your child must stay home until their symptoms have resolved and they are well
- Everyone in your household is a close contact and must isolate for 7 days.

Reporting your child's positive test

If your child was at school when they were infectious you need to report the positive case through the <u>Student</u> <u>COVID-19 Test Portal</u> or you can notify the school in writing or by phone.

You must also report your child's positive test to the Department of Health via the <u>COVID-19 Positive Rapid Antigen</u> <u>Test Self-Reporting Form</u> or call centre on 1800 675 398.
