### What you need to know

If your child is not experiencing COVID-19 symptoms, they can continue to attend school, but you should monitor for symptoms.

Students who show symptoms of COVID-19 cannot attend school and should get tested immediately and isolate until they receive a negative result.

Students should continue with twice-a-week rapid antigen testing on school days.

Students who have recovered from COVID-19 do not need to participate in surveillance testing for 30 days after their isolation period has ended.

For information on symptoms visit: <https://www.coronavirus.vic.gov.au/symptoms-and-risks>.

For more information on how to get tested visit: <https://www.coronavirus.vic.gov.au/taking-test-covid-19>.

**If your child returns a positive result, your child has COVID-19. You must:**

- quarantine your child for seven days
- advise the school about the positive result
- Your child must stay home until their symptoms have resolved and they are well

### Reporting your child's positive test

If your child was at school when they were infectious you need to report the positive case through the [Student COVID-19 Test Portal](#) or you can notify the school in writing or by phone.

You must also report your child's positive test to the Department of Health via the [COVID-19 Positive Rapid Antigen Test Self-Reporting Form](#) or call centre on 1800 675 398.
